400.03 Permitted Uses Constitute Conforming Uses: Any land use which is permitted as a conditional use in a particular district under the terms of this Ordinance shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.

400.04 Uses Not Permitted: Any use that is not permitted by right or conditional use is prohibited.

400.05 District Regulations Constitute Minimum Regulations: The regulations established in this Ordinance within each district shall constitute minimum regulations unless otherwise noted.

400.06 Uniformity within Districts: The regulations and provisions established by this Ordinance for each district shall apply uniformly within each district of the same name and shall apply uniformly to each class or type of building, structure, use, or land therein except as otherwise provided.

400.07 Pending Applications for Building Permits: Nothing in this Ordinance shall require any change in the overall layout, plans, construction, size or designated use of any development, building, structure or part thereof for which preliminary site plan or plat approval has been legally granted by Lafayette County before the enactment of this Ordinance. Construction shall have been started within one (1) year of the effective date of this Ordinance and not discontinued until completion except for reasons beyond the builder's control. All approvals for which start of construction has not begun within one (1) year of the effective date of this Ordinance are hereby revoked and void.

400.08 Interpretation: The provisions of this ordinance shall be read and applied in order to achieve consistency in intent and application with all other Lafayette County Ordinances, including the Lafayette County Land Development Standards and Regulations and Building Codes. In the event a provision in this ordinance conflicts with any other Lafayette County regulation or ordinance, the more stringent requirement shall control.

SECTION 401 – DIMENSIONAL CONTROLS

401.01 Reduction of Yards and Lots Below Minimum Requirements Prohibited: No yard or lot of record existing at the time of passage of this Ordinance shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots of record created after the effective date of this Ordinance shall meet at least the minimum requirements established by this Ordinance.

401.02 Determination of Setbacks: In measuring a required front yard (i.e., setback), the minimum horizontal distance between the existing right-of-way line and the main structure shall be used.

401.03 Exceptions to Height Regulations: The height regulations contained in the District Regulations of this Ordinance do not apply to spires, belfries, cupolas, antennas, water tanks, ventilation chimneys, masts, towers, or other appurtenances usually required to be placed above the roof level and not intended for human occupancy.

401.04 Visibility at Intersections: On a corner lot in any district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impede the vision of motor vehicle operators between a height of two and one-half (2.5) and ten (10) feet above the center line grades of the intersecting streets and within a triangular area bounded by the right- of-way lines for a distance of twenty-five (25) feet from the intersection and a straight line connecting said points twenty-five (25) feet back from the intersection of said right-of-way lines.

SECTION 402 – PUBLIC/QUASI-PUBLIC FACILITIES AND UTILITIES

All public and quasi-public facilities and utilities, as defined under Article II of this Ordinance, may be located in any district in the County, provided:

- A. That all applicable requirements of federal, state and county laws shall be met.
- B. That all such proposed uses shall be subject to the procedures stated under Section 2105 relative to Conditional Uses (Special Exceptions),

No public or quasi-public facility or utility shall be located in a residential district or other district where such land use would adversely affect the surrounding area.

SECTION 403 – DIMENSIONAL REQUIREMENTS FOR PUBLIC/QUASI-PUBLIC FACILITIES AND UTILITIES IN ALL DISTRICTS

Developers of churches, schools, hospitals, civic organizational buildings, country clubs, and other public/quasi-public facilities or utilities in any district shall comply with the following dimensional requirements:

403.01 Maximum Building Height: 35 feet, unless greater height is specifically approved by the Board of Supervisors based upon the required site plan review. Radio, water, cellular phone, and other communication towers may exceed 35 foot height restrictions based upon site plan review. Cellular towers/antennas shall be built as high as practical in order to allow other cellular providers the option of co-locating on an existing tower rather than building additional towers/antennas.

403.02 Minimum Lot Area, Lot Width and Yards: Minimum lot areas, lot widths and minimum yards for all public/quasi-public uses shall be based upon the proposed use, subject to approval of a site plan submitted in accordance with the Lafayette County Land Development Standards and Regulations.

SECTION 404 – BUFFER YARDS/SCREENING STANDARDS

404.01 Purpose and Intent: The purpose and intent of the Buffer/Screening Standards is to maintain many of the environmental features and amenities of the County for present and future generations. Adherence to these regulations will improve the appearance and compatibility of land uses and other development within the County through the installation and maintenance of plantings and fencing for screening and aesthetic effects, thereby serving to protect and preserve the appearance, character, value and safety of the total urban area and nearby properties. Attractive, well maintained buffer yards improve the quality of development. They can also alleviate development disputes by reassuring neighboring property owners that the adjacent project will remain relatively unobtrusive. It is intended that these provisions shall constitute minimum requirements.

404.02 Purpose of Buffer Yards and Screens: The purpose of a buffer yard is to provide a space or distance between two (2) incompatible uses. The purpose of screening is to provide an effective visual barrier between an unsightly or distracting activity and adjacent properties or public ways to preserve property values and assure compatibility of uses. It is also the purpose of these provisions to prescribe standards for development and maintenance of plantings, fences, and walls, for conservation and protection of property through provision of barriers against traffic, trespass, noise, heat, glare, and dust, and through improvement of the appearance of individual properties, neighborhoods, and the County. These standards shall apply to all landscaping and screening required by other provisions of the zoning regulations.

404.03 General Standards: Buffer yards and screens require Site Plan Review. Such required site plan shall set forth yards and open spaces, screening walls, or fences and other development and protective requirements considered necessary to create a reasonable transition to and protection of the adjacent property. When the developer needs to ask for a variance from these Buffer Yard Regulations, an alternative Design Plan which shall fulfill the intent of this Ordinance must be submitted to the Planning/Zoning Commission, which will, upon review, make a recommendation regarding the submission. Reference: Site Plan Review, Lafayette County Land Development Standards and Regulations. Variances shall not be granted, which are less than the next lowest minimum standard, and only then if the size of the lot is such that a full buffer is not possible. The site plan should show plant succession, drainage patterns, and landscape design in order to determine if the trees/vegetation grow well in this region, and also if they make good visual screens.

404.04 Buffer Yard Standards Relating to Abutting Properties: In the table below, when a district abuts a use indicated, a buffer yard and screen shall be provided by the developing use applying for a building permit as listed in Table I:

TABLE I: Buffer Yard and Screen

Use District	Abutting Use District	Minimum in Feet	
		Width	Screen Height
RE	A-1, A-2	20	6
R-1	A-1, A-2, RE	20	6
R-2	A-1, A-2, RE, R-1	20	6
R-3	All Agricultural and Residential Districts	20	6
C-1	All Agricultural and Residential Districts	30	6
C-2	All Agricultural and Residential Districts and C-1	30	6
C-3	All Agricultural and Residential Districts and C-1	30	6
I-1	All Districts except I-2	40	6
I-2	All Districts except I-1	40	6
S-1	All Agricultural and Residential Districts	20	6

404.05 Screening Relative to Abutting Properties: In the table above, when a district abuts a use indicated, screening shall be provided as listed. Screening/fencing may consist of architectural and/or vegetative materials as follows:

- A. Architectural Screening: A screen/fence of wood, masonry, stone, concrete or metal may be placed along the property line or along the inner perimeter of the buffer yard so as to provide visual screening at minimum height requirements, at the time of issuance of the Certificate of Occupancy.
- B. Vegetative Screening: Trees and other vegetation as needed, shall be planted so as to provide year round visual screening at heights required by Table I. If screening is exclusively vegetation, minimum height requirements shall be met at the time of installation. Earthen berms are considered a part of vegetative screening.
- C. Combination of materials: Whenever two or more alternative types of landscaping, fences, or walls are prescribed, they may be provided singly or in any combination.

404.06 Installation: All buffer yards and screening shall be installed in a sound workman-like manner and according to accepted good planting procedures with the quality of plant material as herein described. All screening elements of buffer yards shall be installed so as to meet all other applicable ordinances and code requirements. Buffer yards shall require protection from encroachment. (Encroachment is defined as any protrusion of a vehicle outside of a parking space, display area or access way into a buffer yard.)

In the event that plants are destroyed or die of natural causes, such materials shall be replaced within six (6) months. Failure of the owner of the property to maintain the buffer yard in good condition, as set forth above, shall subject him to the penalties as set forth in this Ordinance.

No buffer yard shall be abandoned, paved or otherwise employed for purposes other than screening.

404.07 Visibility at Intersections: See Section 401.04

404.08 Intersection of Driveway and public ROW and/or Private Street: In any district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impair or block vision between a height of two and one half (2.5) and ten (10) feet above the center line grades of any intersecting street/driveways in the area bounded by the street lines/driveway lines of such corner and a line joining points along said street lines fifteen (15) feet from the point of intersection.

404.09 Credit for Existing Plant Material: If the owner can demonstrate that healthy plant material exists on a site prior to its development for the purposes of buffer yard, the application of the above landscape standards may be adjusted by the Planning/Zoning Commission to allow credit for such plant material if such an adjustment is in keeping with and will preserve the intent of this Ordinance.

404.10 Planned District Standards: Fences, walls or vegetative screening shall be provided at the perimeter of planned developments where necessary to screen improvements, glare, uses or other influences having an adverse impact either on the planned development or on adjacent property. Such screening shall be of sufficient height as determined by the topography to improve the impact of such adverse elements on the first floor of any use located either within or adjacent to the planned development.

404.11 Zone Screening Standards: A screen (wall, fence, or landscaping) not less than six (6) feet in height shall be erected between commercially zoned property and abutting residentially zoned property at the time that any building or structure is erected on the commercial property. The height of the screening shall be the vertical distance measured from the top of the screen to the lowest point to grade within three (3) feet of such screen on the commercially zoned property. The screening shall be constructed on or immediately adjacent to the line dividing the residential and commercial properties. A new screen shall not be required where there is an existing screen, which substantially conforms to this section on the abutting residential property. If the existing screen on abutting residential property is the only screen that conforms to this section, and if it is removed, a new screen shall be required.

404.12 Fencing and Landscape Standards: The screen required herein shall consist of a solid fence or wall not less than six (6) feet in height, but shall not extend within fifteen (15) feet of any street or driveway opening onto a street. The screening shall be placed along the property lines or in case of screening along a street, fifteen (15) feet from the street ROW with landscaping (trees, shrubs, grass, and other planting) between the screening and the pavement. A louvered fence shall be considered solid if it blocks direct vision. Planting of a type approved by the Site Plan review process may also be required in addition to, or in lieu of, fencing. Existing screening which complies with minimum standards may be used to meet the requirements of this Ordinance.

404.13 Exceptions to Screen Requirements: The landscaping and screening requirements set forth in other provisions of the zoning regulations shall be subject to the following exceptions:

- A. Equivalent Screening of Abutting Lot. Prescribed fences, walls, or dense landscaping need not be provided along a lot line if a building, fence, wall or dense landscaping of at least equivalent height, opacity, and maintenance exists immediately abutting and on the opposite side of said lot line.
- B. Height Within Required Minimum Yard. Required fences, walls, or dense landscaping need not be higher than three and one-half (3.5) feet in that portion of any required minimum yard which lies within ten (10) feet of any street line.
- C. Lot Too Small to Accommodate a Full Buffer. Property owner may be allowed to substitute a berm or landscaped wall for all or part of the transitional yard requirements. The solid fence or wall should be constructed of materials that are compatible with the principal building.

404.14 Maintenance of Screens: All required planting shall be permanently maintained in good growing condition and, whenever necessary, replaced with new plant materials to ensure continued compliance with applicable landscaping requirements. All required fences and walls shall be permanently maintained in good condition and, whenever necessary, repaired or replaced. The owner shall be responsible for the maintenance of all buffer yards which shall be maintained in good condition so as to present a clean and orderly appearance.

404.15 Permits: Whenever a buffer yard or planting strip is required, it shall be completed prior to issuance of any certificate of occupancy and shall thereafter be maintained with permanent plant materials to provide a screen to abutting properties. They will reduce the possibility of traffic hazards as much as possible. Parking facilities must be designed to require vehicles leaving parking stalls to maneuver on the site to exit onto streets head first.

404.16 Design Standards for Screens, Buffers, Berms, and Walls: The purpose of these standards is to screen parking areas from view, to improve the appearance of parking areas near streets, to break the views of large expanses of pavement, to enhance property values and protect investments, to reduce erosion and storm water run-off problems, to provide shade, to reduce glare, to encourage the saving of large trees and to reduce fumes and dust.

- A. Screens and buffers are not required along abutting bridge embankments, railroad tracks, slopes and retaining walls and where permanent landscaping is already provided.

- B. Masonry walls, sight proof fencing, or dense landscaping are required between commercial parking lots in side and rear yards abutting parcels that are residentially zoned or contain dwellings. These walls or fencing must be at least six feet high and may be combined with landscaping.
- C. Landscaped buffer strips are required between streets and parking lots or other driving surfaces except those serving single family and duplex dwellings. Interior parking islands are encouraged to be planted with trees and other shrubbery. If earthen berms are used, the berms must be used in conjunction with vegetation. Commercial establishments over one story tall must combine architectural screening with vegetative/landscaping screening.

SECTION 405 – HOME OCCUPATIONS

Home occupations, as defined under Article II of this Ordinance, shall be subject to the following limitations and such conditions as may be determined by the Board of Supervisors for the protection of the health, safety and welfare of the citizens of Lafayette County:

405.01 Display and Storage: No storage or display of materials, goods, supplies, or equipment related to the operation of a home occupation shall be visible from the outside of any structure located on the premises.

405.02 Maximum Area: Not more than twenty-five percent (25%) of the floor area of the dwelling shall be used for the conduction of the home occupation. Any accessory building used in connection with the home occupation shall not exceed twenty-five percent (25%) of the floor area of the principal dwelling.

405.03 Traffic and Parking Restrictions: No traffic shall be generated by such home occupations in greater volumes than would normally be expected in a residential neighborhood (as determined by the Zoning Administrator), and any need for parking generated by the conduction of such home occupations shall be met off the street and other than in a required yard. Furthermore, an ample amount of such off-street parking shall be provided as determined by the Zoning Administrator at the time of the application for a building permit or change of use permit.

405.04 Exterior Lighting: There shall be no exterior lighting which would indicate that the dwelling and/or accessory building is being utilized in whole or in part of any purpose other than residential.

405.05 Signs Relating to Home Occupations: The maximum size for all home occupation signs is two (2) square feet. Home occupation signs shall be affixed to the house no more than six (6) feet above floor level and may not be illuminated.

405.06 Other Provisions: No equipment or process shall be used in a home occupation which creates noise, vibration, glare, fumes, or odors detectable to the normal senses outside of the dwelling unit or accessory building in which the occupation is conducted.

405.07 Privilege Licenses: Existing and new home occupations are required to have a privilege license in accordance with state law.

405.08 Permits: A building permit (if construction is necessary in connection with proposed home occupation) or a change of use permit (if no construction is necessary) must be obtained from the Building Official prior to the initiation of a home occupation.

SECTION 406 – PORTABLE STORAGE UNITS

406.01 Allowed Locations: A Portable Storage Unit (PSU) may be located in any residential zoning district. This section does not regulate the placement or use of a PSU in non-residential districts.

406.02 Maximum Size of Allowed PSU and Other Limitations: The total square footage for a PSU on any site in a residential district shall not exceed one hundred thirty (130) square feet in area. Only one (1) PSU is allowed on any site at any given time.

406.03 Maintenance and Security of PSU: The provider of any PSU shall be responsible for ensuring that the PSU is in good condition and free from evidence of deterioration. The owner of any site on which a PSU is placed shall be responsible for keeping the PSU locked when not being loaded or unloaded and must ensure that no hazardous substances are stored or kept within the PSU.

406.04 Setback Requirements: A PSU must be located on the driveway serving the dwelling unit, and must be a minimum of ten (10) feet from the curb of the public street.

406.05 Maximum Duration of Placement of PSU: No PSU shall remain at an allowed location in excess of one hundred and twenty (120) calendar days.

For a PSU located upon property upon which Lafayette County has issued a valid building permit, the maximum duration for placement of such PSU shall be one hundred and twenty (120) days, at which time an extension shall be subject to review by the Zoning Administrator. An extension may be granted based on a determination of need in order to complete construction.

In the event of a natural disaster, fire, or other accidental event, then a PSU may remain at a location for the period of time to effect repairs, not to exceed 12 months.

Every building or structure subject to Lafayette County building Codes hereafter constructed, moved, or structurally altered shall have a plot plan submitted to the Lafayette County Zoning Administrator.

SECTION 410 – SURFACE MINING

Extraction of minerals, including dirt, soil, sand and gravel in conjunction with construction activities at a construction site for development of land is not considered to be a surface mining operation which would be subject to the procedures stated under Section 2105 relative to Conditional Uses (Special Exceptions). All surface mining operations shall comply with appropriate MDEQ regulations.

SECTION 411 – MAINTENANCE AND LIABILITY OF DEDICATED OPEN SPACE, SCREENS AND BUFFERS

Authority granted by Lafayette County for the development of any property shall not be construed as nor constitute an obligation on the part of Lafayette County either for maintenance or liability in the operation and use of common open space, screens or buffers located on the property.

No rubbish, salvage materials, junk or hazardous waste materials, including inoperable vehicles and parts and any combustible matter, shall be openly stored, allowed to accumulate or kept in the open and no weeds or other growth shall be allowed to go uncut within any District when the same shall be determined by the appropriate County Official (Fire Coordinator, Building Official, or other authorized County employee) or health official to constitute a menace to the public health and/or safety.

SECTION 414 – PARKING AND STORAGE OF VEHICLES REQUIRING LICENSES

ARTICLE IX: RESIDENTIAL LOW DENSITY DISTRICT (R-1)

SECTION 900 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the development of low density, single-family detached dwellings and related compatible uses in relatively spacious surroundings which provide ample, usable open space for leisure time activities. No new single-family residential subdivisions, shall be developed in R-1 districts after the effective date of this Ordinance without public or any other approved sewerage. It is the further intent that development support and protect the rural character and natural resources of Lafayette County while providing for limited low-density residential development that is consistent with the principles emphasized in the Lafayette County Comprehensive Plan. The clustering of development is allowed in this district, with the provision that land be set aside for open space.

SECTION 901 – LAND USES PERMITTED

- A. Single-family detached dwellings with only one dwelling per lot.
- B. Accessory uses and structures associated with the use of the land for residential purposes.
- C. Public or private recreational or open space facilities, excluding country clubs and the like which shall be regulated as public/quasi-public facilities and utilities subject to the provisions of Section 402 of this Ordinance. All lakes associated with this or any other usage shall comply with Lafayette County Land Development Standards and Regulations.

SECTION 902 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2105

- A. Inns or “bed and breakfast inns.”
- B. Public or quasi-public facilities and utilities in conformance with Section 402 and other regulations of this Ordinance.
- C. Extraction of minerals, including sand and gravel, provided that when “open-pit” operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide Lafayette County Board of Supervisors with written proof of the same.

SECTION 903 – DIMENSIONAL REQUIREMENTS

903.01 Maximum Building Height: 35 feet.

903.02 Minimum Lot Area:

With Clustering: 20,000 square feet, 15% open space required.

Without Clustering: 33,500 square feet.

903.03 Maximum Overall Density: 1.3 units per gross acre.

903.04 Minimum Lot Width: 80 feet.

903.04 Minimum Yards/Setback:

- A. Front yard: 30 feet.
- B. Side yards: 8 feet, except where a larger side yard is required to meet buffer yard standards as set forth in Section 404.
- C. Rear yard: 25 feet.

903.06 Buffer and Screening Requirements: Abutting Use Districts: A-1, A-2, RE
Min Width: 20 ft. Min Height: 6 ft.

SECTION 904 – REQUIRED OPEN SPACE RESERVATION FOR CLUSTERING

Where a developer proposes a clustered R-1 subdivision, the developer shall provide common open space amounting to fifteen percent (15%) of the total gross area of the subdivision. Such common open space shall consist of land reserved exclusively for the recreational use of the residents of the R-1 subdivision. The Development Plan shall indicate the location and area (in acres) to be so reserved or dedicated for open space or recreational facilities.

904.01 Maximum Amount of Common Open Space Covered by Water: No more than fifty percent (50%) of the required amount of open space may be covered by lakes or ponds.

904.02 Steep Slopes: In reviewing the preliminary subdivision plat for a proposed clustered R-1 subdivision, the Board of Supervisors shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope of land. The Board of Supervisors shall decide whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

904.03 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Board of Supervisors as part of the preliminary subdivision plat review process. All open space improvements shall be shown on the sketch subdivision plat or development plan (precise locations and dimensions and proposed use). Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings, swimming pools, parks and playgrounds or similar facilities.

904.04 Staged Development of a Clustered R-1 Subdivision: If a clustered R-1 subdivision is to be developed in stages or parts, fifteen percent (15%) of each part must be reserved for open space. However, in order to provide usable open space, the amount reserved shall not be less than one (1) acre. Thus, if a developer proposes to ultimately develop 20 acres of land for homes and the first phase will only contain five acres, the developer must reserve at least one (1) acre for open space for the first part - even though 15% of 5 acres is only 0.75 acres. If the second part consists of 15 acres, the developer shall reserve 15% of the second part of 2.25 acres, in addition to the

one acre reserved for the first phase; thus, the total open space reserved for the 20 acre tract developed in two phases would be 3.25 acres.

904.05 Maintenance/Liability in the Operation and Use of Common Open Space and Recreational Areas: Authority granted by Lafayette County for the development of a clustered R-1 subdivision shall not be construed as nor constitute an obligation of the part of Lafayette County either for maintenance or liability in the operation and use of common open space and recreational facilities located in the subdivision.

At the time the application for the final subdivision plat is submitted for the clustered R-1 subdivision, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the responsibility for liability insurance, taxes, and maintenance of open space and other common facilities shall rest with the owners of the several lots or parcels of land located within the R-1 subdivision. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

SECTION 905 – COMPLIANCE WITH LAND DEVELOPMENT STANDARDS AND REGULATIONS, BUILDING CODES AND OTHER COUNTY REGULATIONS

The Developer, owner and contractor proposing a subdivision of land, commercial enterprise, apartment complex, condominium development and other developments as defined herein, and the construction, occupancy and use of any structure must also comply with the applicable requirements contained in the Lafayette County Land Development Standards and Regulations, Building Codes and other ordinances adopted by the Lafayette County Board of Supervisors.

ARTICLE X: RESIDENTIAL MEDIUM DENSITY DISTRICT (R-2)

SECTION 1000 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the development of medium density residential uses in relatively spacious surroundings. Any area zoned R-2 Residential Medium Density shall have public or any other approved sewerage. The clustering of development is allowed in this district, with the provision that land be set aside for open space.

SECTION 1001 – LAND USES PERMITTED

- A. Single-family detached dwellings with only one dwelling per lot.
- B. Accessory uses and structures associated with the use of the land for residential purposes.
- C. Public or private recreational or open space facilities, excluding country clubs and the like which shall be regulated as public/quasi-public facilities and utilities subject to the provisions of Section 402 of this Code. All lakes associated with this or any other usage shall comply with Lafayette County Land Development Standards and Regulations.

SECTION 1002 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2105

- A. Modular homes with only one dwelling per lot.
- B. Duplexes.
- C. Public or quasi-public facilities and utilities in compliance with Section 402 and other regulations of this Code.
- D. Extraction of minerals, including sand and gravel, provided that when “open-pit” operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide Lafayette County Board of Supervisors with written proof of the same.

SECTION 1003 – DIMENSIONAL REQUIREMENTS

1003.01 Maximum Building Height: 35 feet.

1003.02 Minimum Lot Area:

With Clustering: 7,500 square feet, 15% open space required.

Without Clustering: 13,000 square feet.

1003.03 Maximum Overall Density: 3.3 units per gross acre.

1003.03 Minimum Lot Width: 60 feet.

1003.04 Minimum Yards/Setback:

- A. Front yard: 20 feet.
- B. Side yards: 5 feet, except where a larger side yard is required to meet buffer yard standards as set forth in Section 404.
- C. Rear yard: 20 feet.

1003.05 Buffer and Screening Requirements: Abutting Use Districts: A-1, A-2, RE, R-1
 Min Width: 20 ft. Min Height: 6 ft.

SECTION 1004 – REQUIRED OPEN SPACE RESERVATION FOR CLUSTERING

Where a developer proposes a clustered R-2 subdivision, the developer shall provide common open space amounting to fifteen percent (15%) of the total gross area of the subdivision. Such common open space shall consist of land reserved exclusively for the recreational use of the residents of the R-2 subdivision. The Development Plan shall indicate the location and area (in acres) to be so reserved or dedicated for open space or recreational facilities.

1004.01 Maximum Amount of Common Open Space Covered by Water: No more than fifty percent (50%) of the required amount of open space may be covered by lakes or ponds.

1004.02 Steep Slopes: In reviewing the preliminary subdivision plat for a proposed clustered R-2 subdivision, the Board of Supervisors shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer’s specific proposed use of the steep slope of land. The Board of Supervisors shall decide whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

1004.03 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Board of Supervisors as part of the preliminary subdivision plat review process. All open space improvements shall be shown on the sketch subdivision plat or development plan (precise locations and dimensions and proposed use). Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

1004.04 Staged Development of a Clustered R-2 Subdivision: If a clustered R-2 subdivision is to be developed in stages or parts, fifteen percent (15%) of each part must be reserved for open space. However, in order to provide usable open space, the amount reserved shall not be less than one (1) acre. Thus, if a developer proposes to ultimately develop 20 acres of land for homes and the first phase will only contain four acres, the developer must reserve at least one (1) acre for open space for the first part - even though 15% of 4 acres is only 0.6 acres. If the second part consists of 16 acres, the developer shall reserve 15% of the second part, 2.4 acres, in addition to the one acre reserved for the first phase; thus, the total open space reserved for the 20 acre tract developed in two phases would be 3.4 acres.

1004.05 Maintenance/Liability in the Operation and Use of Common Open Space and Recreational Areas: Authority granted by Lafayette County for the development of a clustered R-2 subdivision shall not be construed as nor constitute an obligation of the part of Lafayette County either for maintenance or liability in the operation and use of common open space and recreational facilities located in the subdivision.

At the time the application for the final subdivision plat is submitted for the clustered R-2 subdivision, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the responsibility for liability insurance, taxes, and maintenance of open space and other common facilities shall rest with the owners of the several lots or parcels of land located within the R-2 subdivision. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

SECTION 1005 – COMPLIANCE WITH LAND DEVELOPMENT STANDARDS AND REGULATIONS, BUILDING CODES AND OTHER COUNTY REGULATIONS

The Developer, owner and contractor proposing a subdivision of land, commercial enterprise, apartment complex, condominium development and other developments as defined herein, and the construction, occupancy and use of any structure must also comply with the applicable requirements contained in the Lafayette County Land Development Standards and Regulations, Building Codes and other ordinances adopted by the Lafayette County Board of Supervisors.

ARTICLE XI: RESIDENTIAL HIGH DENSITY DISTRICT (R-3)

SECTION 1100 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the development of higher density multiple family (i.e., three or more) residential uses with adequate, usable open space to prevent overcrowding. It is the intent of this Ordinance that these districts be carefully located only in areas where the infrastructure of the County (i.e., the road/highway system, storm drainage and water and sanitary sewer systems) is adequate to serve such higher density housing. The use of this district is appropriate as a transition between low density (R-1) or medium density (R-2) residential districts and higher intensity uses, such as commercial uses or light industrial (I-1) uses, that are not compatible with lower density residential environment. All apartment developments shall front upon at least one road or highway that is classified as an arterial or approved collector street.

SECTION 1101 – LAND USES PERMITTED

- A. Any use permitted in R-2, subject to R-2 regulations.
- B. Two-unit townhouses (i.e., townhouses that are part of a townhouse subdivision in which the occupant owns both the individual townhouse unit and the lot on which the townhouse is constructed; property lines between such townhouses extend through the center of party walls separating the individual single-family dwellings).
- C. Multiple family dwellings including apartments as defined in Article II.
- D. Accessory uses or structures in multiple family residential complexes, including laundromats, vending machine centers, recreational buildings, swimming pools, tennis courts, and similar uses and structures incidental to multiple family buildings. Such uses and structures shall be reserved exclusively for use by residents and guests of residents of the multiple family complex.

SECTION 1102 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2105

- A. Child care facilities.
- B. Three or four-family townhouses (i.e., townhouses that are part of a townhouse subdivision in which the occupant owns both the individual townhouse unit and the lot on which the townhouse is constructed; property lines between such townhouses extend through the center of party walls separating the individual single-family dwellings).
- C. Two, three or four-unit condominiums.
- D. Public or quasi-public facilities and utilities in compliance with Section 402 and other regulations of this Ordinance.

- E. Extraction of minerals, including sand and gravel, provided that when “open-pit” operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide Lafayette County Board of Supervisors with written proof of the same.

SECTION 1103 – DIMENSIONAL REQUIREMENTS

1103.01 Maximum Height: 35 feet unless greater height is specifically approved by the Board of Supervisors at the time the site plan is approved.

1103.02 Minimum Size of Development: Two (2) acres.

1103.03 Maximum Density: 8 dwelling units per gross acre.

1103.04 Minimum Yards/Setbacks:

All yard shall be a landscaped open area with no encroachments permitted including parking lots, patios, swimming pools, or other paved areas except for entrance/exit driveways in Front Yards only.

- A. Front yard: 40 feet.
- B. Side and rear yards: 25 feet from each side lot line or rear lot line to any building, except where a side or rear lot line abuts an R-1 or R-2 district, in which case the side or rear yard shall be 50 feet from any building to the lot line abutting the R-1 or R-2 district. Furthermore, all yards must meet the buffer yard standards set forth in Section 404.

1103.05 Minimum Space between Buildings: No principal building or accessory building shall be constructed nearer than thirty (30) feet to any other principal building or accessory building.

1103.06 Buffer and Screening Requirements: All Agricultural and Residential Districts
Min Width: 20 ft. Min Height: 6 ft.

SECTION 1104 – REQUIRED OPEN SPACE RESERVATION

A minimum of thirty percent (30%) of the gross site area to be developed for a high-density residential development shall be devoted to open space. In calculating this open space requirement, the front, side and rear yards may be included. Parking lots and driveways, however, may not be included in calculating this required open space. The development plan shall indicate the location and area (in acres) to be so reserved or dedicated for open space or recreational facilities.

1304.01 Maximum Amount of Common Open Space Covered by Water: No more than fifty percent (50%) of the required amount of open space may be covered by lakes or ponds.

1304.02 Steep Slopes: In reviewing the development plan for a proposed high density residential development, the Board of Supervisors shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope land. The Board of

Supervisors shall determine whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

1104.03 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Board of Supervisors as part of the site plan review process. Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

1104.04 Maintenance/Liability in the Operation and Use of Common Open Space Areas: Authority granted by Lafayette County for the development of an high density residential development shall not be construed as, nor constitute, an obligation on the part of Lafayette County either for maintenance or liability in the operation and use of common open space and recreational facilities located in the property.

At the time the application for the final site plan is submitted for a high density residential development, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the assumption of liability insurance, taxes and maintenance of open space and other common facilities shall rest with the owners of the complex, a management company or a homeowners association. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

SECTION 1105 – COMPLIANCE WITH LAND DEVELOPMENT STANDARDS AND REGULATIONS, BUILDING CODES AND OTHER COUNTY REGULATIONS

The Developer, owner and contractor proposing a subdivision of land, commercial enterprise, apartment complex, condominium development and other developments as defined herein, and the construction, occupancy and use of any structure must also comply with the applicable requirements contained in the Lafayette County Land Development Standards and Regulations, Building Codes and other ordinances adopted by the Lafayette County Board of Supervisors.

ARTICLE XII: PLANNED UNIT DEVELOPMENT DISTRICT (PUD)

SECTION 1200 – PURPOSE OF THIS DISTRICT

The purposes for establishing Planned Unit Development (PUD) districts are:

- A. To provide for the development of relatively large land areas as total cohesive and coordinated units, rather than development on a lot-by-lot basis.
- B. To permit more flexible and advantageous use of sites, especially with regard to natural features of the landscape, through the relaxation of conventional zoning requirements including minimum lot size and minimum lot width, while at the same time retaining approximately the same overall density as would ordinarily apply if the same areas were developed by conventional methods. (Note: However, minimum yard requirements are the same as for conventional districts.)
- C. To help reduce the cost of residential development by allowing more dwelling units per gross acre than could be built in a conventional low density subdivision (due to the extensive space requirements of roads rights-of-way, utility easements, etc., in a conventional subdivision) and by reducing the length of roads and utility extensions through concentration or clustering of housing.
- D. To provide for the development of sites in which land not used for structures and yards but not required by the basic zoning of the site shall be reserved collectively in contiguous units accessible to all dwellings within the PUD as open space; this open space will provide recreational opportunities for the residents of the PUD, and will also afford improved, safer pedestrian circulation within the PUD.

SECTION 1201 – PLANNED UNIT DEVELOPMENTS SHALL BE SUPERIMPOSED DISTRICTS

A PUD shall be a superimposed designation, thereby providing a broader latitude of design to achieve the purposes stated under Section 1200. As a superimposed designation, PUD shall be subject to the overall density requirements of the district over which they are superimposed. The maximum residential density shall be calculated as prescribed under Section 1205.02.

SECTION 1202 – REZONING REQUIRED FOR DEVELOPMENT OF PORTION OF PUD FOR RESIDENTIAL HIGH DENSITY, OR COMMERCIAL USES

If a person desires to reserve a portion of a proposed PUD for townhouses, or multiple family residential uses (condominiums or apartments), and such areas are not zoned appropriately for such densities, he shall submit an application for rezoning in accordance with Section 2106 of this Ordinance indicating which areas he desires to be rezoned.

Likewise, portions of a PUD may be reserved for commercial use by applying for the appropriate commercial zoning if the subject land is not zoned commercial on the Official Zoning Map.

If the subdivider wishes to reserve portions of the proposed PUD for moderate density or high density residential development or commercial use, such areas shall be shown on a sketch plat or "Development Plan," which shall be submitted with an application for rezoning. A rezoning to permit such residential densities or commercial uses shall only be approved upon the condition that the preliminary plat and individual site plans (for the high density residential or commercial development) substantially conform to the sketch plat or development plan.

SECTION 1203 – LAND USES PERMITTED

The uses that are permitted outright in PUD districts are subject to the regulations and restrictions as prescribed in the initial underlying zone over which the PUD is superimposed.

SECTION 1204 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2105

- A. Child care facilities.
- B. Public or quasi-public facilities or utilities may be considered for location in a PUD district in compliance with Section 402 of this Ordinance.
- C. Extraction of minerals, including sand and gravel, provided that when "open-pit" operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide Lafayette County Board of Supervisors with written proof of the same.
- D. Any other use which the Board of Supervisors determines meets the standards outlined under Section 2105.01.

SECTION 1205 – DIMENSIONAL REQUIREMENTS

1205.01 Minimum Size of PUD: The minimum size of any PUD shall be five (5) acres.

1205.02 Maximum Residential Development Density: The basic control of residential development density shall be the density requirement of the particular conventional district (i.e., R-1 or R-2) over which the PUD is superimposed. The maximum density shall be calculated by dividing 43,560 square feet by the minimum lot size and then multiplying that quotient by the total gross acreage to be included in the PUD.

EXAMPLE: If a subdivider proposes to develop a 30 acre tract zoned "R-2" as a PUD, the basic control of density is that of the R-2 district: 43,560 square feet divided by 13,000 square feet (minimum lot size in R-2 districts), resulting in a quotient of 3.3 lots or dwelling units; 30 acres multiplied by 3.3 = 100 lots or single-family detached dwelling units.

1205.03 Minimum Lot Size: No minimum.

1205.04 Minimum Lot Width: No minimum.

1205.05 Minimum Yards/Setbacks: The minimum yard requirements for single-family detached dwellings in PUD districts shall be the same as those required in R-1 or R-2 districts.

1205.06 Maximum Height: 35 feet, unless greater height is specifically approved by the Board of Supervisors.

1205.07 Buffer and Screening Requirements: Abutting Use Districts: Per Underlying Zone
Min Width: Per Underling Zone Min Height: Per Underling Zone

SECTION 1206 – DIMENSIONAL REQUIREMENTS FOR TOWNHOUSES, PATIO HOMES, MULTIPLE FAMILY RESIDENTIAL AND COMMERCIAL PORTIONS OF A PUD

If an application for rezoning is approved to allow portions of a PUD to be used for townhouses, patio homes, condominiums or apartments, or some commercial classification, the dimensional requirements of the appropriate district shall apply.

SECTION 1207 – REQUIRED COMMON OPEN SPACE RESERVATION

Common open space shall be provided as a condition to the approval of a PUD. Such common open space shall consist of land reserved exclusively for the recreational use of the PUD residents and owned and maintained by the residents through a Homeowner's Association.

Common open space shall be integrated throughout the PUD, easily accessible to all the residents. The sketch plat or Development Plan shall indicate the location and area (in acres) to be so reserved for open space or recreational facilities.

1207.01 Minimum Percentage of Land Reserved as Common Open Space: Common open space shall comprise at least twenty percent (20%) of the gross area (total acreage) minus ten percent (10%) of the PUD as shown on the required development plan. Public roads shall not be considered in meeting the open space requirements of this section. Utility easements (electrical power, natural gas or other) may be used to meet the required common open space as required by this section, provided that portions of the utility easements that are so used shall be improved with the construction of pedestrian or bicycle trails or other improvements that are specifically approved by the Board of Supervisors. Unimproved raw land inside such easements shall in no case be considered in meeting these requirements.

1207.02 Maximum Amount of Common Open Space Covered by Water: No more than fifty percent (50%) of the required amount of open space may be covered by water (lakes, ponds, streams, storm water retention/detention, etc.)

1207.03 Steep Slopes: In reviewing the preliminary subdivision plat for a proposed PUD, the County Engineer shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope land. The County Engineer shall make a recommendation to the Board of Supervisors as to whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

1207.04 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Board of Supervisors as part of the preliminary subdivision plat review process.

All open space improvements shall be shown on the sketch subdivision plat or Development Plan (approximate locations and dimensions and proposed use) and the preliminary and final plats (precise locations and dimensions and proposed use). Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

1207.05 Staged Development of a Planned Unit Development: If a PUD is to be developed in stages or parts and the first part is to consist of the minimum of five (5) acres, twenty percent (20%) must be reserved for open space, or one (1) acre. The open space requirements for subsequent parts or phases shall be calculated based upon the total open space requirement for the entire subdivision, including the initial phase or phases. Thus, if a developer proposes to ultimately develop 40 acres of land for a PUD and the first phase will only contain five (5) acres, the developer must reserve a total of at least six (6) acres for the entire subdivision, which may include the 0.75 acres reserved for the first part.

1207.06 Maintenance/Liability in the Operation and Use of Common Open Space Areas: Authority granted by Lafayette County for the development of a PUD shall not be construed as, nor constitute, an obligation on the part of Lafayette County either for maintenance or liability in the operation and use of common open space and recreational facilities located in the PUD.

At the time the final subdivision plat is submitted for a PUD, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the assumption of liability insurance, taxes and maintenance of open space and other common facilities shall rest with the owners of the several lots or parcels of land located within the PUD. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

SECTION 1208 – AS BUILT LETTER

Within thirty days of final plat approval, the engineer of record who submitted the site plan for a PUD shall provide the Zoning Administrator with a letter certifying that all density requirements set by the underlying zoning were adhered to.

SECTION 1209 – COMPLIANCE WITH LAND DEVELOPMENT STANDARDS AND REGULATIONS, BUILDING CODES AND OTHER COUNTY REGULATIONS

The Developer, owner and contractor proposing a subdivision of land, commercial enterprise, apartment complex, condominium development and other developments as defined herein, and the construction, occupancy and use of any structure must also comply with the applicable requirements contained in the Lafayette County Land Development Standards and Regulations, Building Codes and other ordinances adopted by the Lafayette County Board of Supervisors.

ARTICLE XIII: COMMERCIAL LOW DENSITY DISTRICT (C-1)

SECTION 1300 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide relatively quiet, attractive, and spacious areas for the development of non-retail restricted commercial uses that do not generate substantial volumes of vehicular traffic (i.e., generally, not more than approximately 70 average daily trips per 1,000 square feet of Gross Floor Area according to the National Cooperative Highway Research Program Report #187 or the latest edition of the Institute of Transportation Engineers manual entitled *Trip Generation*.) This district is intended to encourage high quality office park development and to serve as a transition zone between residential uses and higher intensity commercial uses or arterial streets. These districts are appropriate for the fringes of retail districts.

SECTION 1301 – LAND USES PERMITTED

- A. Professional offices and clinics of all types.
- B. Privately-owned and operated museums, libraries, galleries, and similar facilities.
- C. Residential care facilities and ancillary uses commonly associated with any permitted use.
- D. Any other use which the Board of Supervisors determine to be of the same character and nature as those specifically permitted above.
- E. Office parks.

SECTION 1302 – CONDITIONAL USES AND STRUCTURES AS PROVIDED UNDER SECTION 2105

- A. Business-related retail and service establishments not to exceed twenty-five (25%) of the leasable area of any office building or not to exceed 10,000 square feet if freestanding. Permitted uses include, but are not limited to, office supply stores, office equipment dealers, telecommunication equipment sales and service companies, computer stores and services, blueprint and copy services, graphics supply and equipment dealers; private employment agencies; travel agencies; emergency health care clinics; child care facilities; and totally enclosed health club facilities.
- B. Restaurants, cafeterias, delicatessens, coffee shops and carry-out food establishments if located within an office building.
- C. Educational and technical training facilities of all types except for those which require outdoor space and/ or industrial type structures or those that involve trucking or similarly sized equipment; included are conference center facilities.
- D. Condominiums and loft-style apartments that are developed in connection with commercial establishments.

- E. Public or quasi-public facilities and utilities in compliance with Section 402 of this Zoning Ordinance.
- F. Extraction of minerals, including sand and gravel, provided that when “open-pit” operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide Lafayette County Board of Supervisors with written proof of the same.

SECTION 1303– DIMENSIONAL REQUIREMENTS

1303.01 Maximum Building Height: 35 feet.

Provision of Access and Maneuver Space for Non-Residential Land Uses: In calculating any required parking area, other than for parking spaces required for single and two- family dwellings, sufficient access and maneuver space shall be provided to permit the parking and removal of any vehicle without moving other vehicles. Furthermore, all parking spaces shall be designed, maintained and regulated so that no parking or maneuvering incidental to parking shall be on any public street, sidewalk, or alley; and exiting will not require backing into a public street.

- D. Parking Space Near Fire Hydrants: Under no circumstances shall any parking space be provided within ten (10) feet of a fire hydrant.

1901.02 Schedule of Off-Street Parking Requirements: For the purpose of this Ordinance, an “off-street parking space” shall consist of a space sufficient in size to store one full size automobile with room for opening doors on both sides. When computing parking space requirements on the basis of the number of persons expected to be on the premises of a particular land use, the average number of occupants, practitioners, patrons or employees anticipated to be on the premises shall be used. When the application of the requirements of this Section would result in a fractional space, any such fraction shall be counted as one space. In the case of mixed, compatible subcategories of land use (e.g., as shopping centers containing a grocery store, a furniture store, a motion picture theater, etc.), the parking space required by the schedule below shall equal the sum of the requirements for each of the various uses (subcategories) computed separately. Off-street space for parking and storage of vehicles shall be provided in accordance with the following schedule:

- A. Residential Zones R-1, R-2, and R-3: Two spaces per dwelling unit.
- B. General Business, Commercial or Service Establishments Catering to the Retail Trade: One parking space for each 350 square feet of gross floor area, except for the following prescribed uses:
1. Hotels and motels: One space for each guest room.
 2. Restaurants and similar establishments serving food and beverages: One space for each 200 square feet of gross floor area devoted to patron use.
 3. Business and professional offices: One space for each 500 square feet of gross floor area.
 4. Furniture and appliance stores: One space for each 600 square feet of gross floor area.
 5. Theaters, auditoriums and other commercial places of assembly: One space for each five fixed seats.
 6. “Drive-in service” establishments, such as drive-in banking, drive-in “windows” for restaurants, dry-cleaning and laundry establishments and similar uses: In addition to one parking space for every 350 square feet of gross floor area (one space for every 200 square feet of gross floor area in restaurants), each such establishment shall have three standing spaces (i.e., spaces for vehicles waiting in line for service) for each teller window or other facility at which customer service is provided.
 7. Motor vehicle repair shops, body shops, etc.: One space for each regular employee, plus two spaces for each vehicle service repair bay. (a service bay may count as one of the spaces.)
 8. Motor vehicle sales, machinery sales and equipment sales establishments: Two parking spaces (one customer and one employee) for each 2,000 square feet of area utilized for the display of vehicles, machinery or equipment for sale, whether or not

said area is enclosed. (Note: If a motor vehicle sales establishment is combined with a motor vehicle repair shop, body shop or similar use, one space shall be provided for each employee of the establishment, whether mechanic, salesman, or other, plus one space for every 2,000 square feet of sales display area and two spaces for each vehicle service repair bay).

9. Warehouse, Wholesale and Manufacturing Uses Not Catering to the Retail Trade: One parking space for each 1,000 square feet of gross floor area, or one parking space for each employee on the largest shift, whichever is greater; plus one space for each vehicle operating from the premises.
- G. Public/Quasi-Public Facilities and Uses: Off-street parking space requirements for public/quasi-public facilities and uses shall be determined based upon a site plan and in accordance with the following schedule of requirements:
1. Churches: One parking space for each five fixed seats in the principal assembly hall or one parking space for every 90 linear inches of pew space, whichever is applicable.
 2. Hospitals: One space for each patient bed, plus one space for each employee determined by the number of employees on the largest shift.
 3. Rest homes, nursing homes, sanitariums, and convalescent homes: One space for every two patient beds, plus one space for each employee determined by the number of employees on the largest shift.
 4. Libraries, art galleries, and museums, both public and private: One space for each 400 square feet of floor area (excluding storage rooms).
 5. Other public/quasi-public facilities and uses not listed above: The off-street parking requirements for public/quasi-public uses not listed above shall be determined on the basis of a site plan submitted in accordance with the Lafayette County Land Development Standards and Regulations.

1901.03 Design Standards for Off-Street Parking: Off-street parking in C-1, C-2, C-3, I-1 and I-2 shall be provided in accordance with the minimum design standards specified in Table 1. With regard to the provision of parking for handicapped persons, developers shall comply with the Federal regulations implementing the Americans with Disabilities Act.

A 90-degree parking angle shall be required for all parking lots unless the developer can demonstrate to the Lafayette County Planning Commission during required site plan review (see Lafayette County Land Development Standards and Regulations) that there are unusual circumstances, such as an unusual lot shape, that would make it necessary to use a parking angle other than 90-degree. Parking stalls shall be marked by a four-inch white, reflector stripe. Parking stalls shall be a minimum of nine (9) feet wide, measuring center to center of the striped line.

Table 1: Design Standards for Off-Street Parking

Parking Angle	Minimum Stall Width Parallel to Aisle	Minimum Stall Depth Measured at Right Angle to Aisle	Minimum Stall Depth to Interlock	Minimum Aisle Width
45 Degrees	12.7 feet	17.5 feet	15.3 feet	12 feet
60 Degrees	10.4 feet	19 feet	17.5 feet	16 feet
90 Degrees	9 feet	18.5 feet	18.5 feet	26 feet

ARTICLE XX: NONCONFORMITIES

SECTION 2000 – PURPOSE OF THIS ARTICLE

A nonconformity is any land, lot, building, structure or parts thereof, existing before the enactment of this Ordinance, which subsequent to the enactment of this Ordinance or amendment thereto, does not conform with the use regulations and/or dimensional regulations of the district in which it is situated, and/or does not comply with any other requirements herein.

It is the intent of this Ordinance to permit nonconformities to continue until they are removed. It is further the intent of this Ordinance that nonconformities shall not be enlarged upon, expanded, or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

Nonconforming uses (see definition under Section 2001 below) are declared by this Ordinance to be incompatible with permitted land use in the districts involved. Therefore, a nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of structure and land in combination shall not be extended or enlarged after passage of this Ordinance by the addition of other uses of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change of plans, construction, or designated use of any building on which preliminary site plan or plat approval has been legally granted by Lafayette County prior to the effective date of adoption or amendment of this Ordinance.

SECTION 2001 – TYPES OF NONCONFORMITIES

Where the definition of a nonconformity has been given in Section 201 and under Section 2000, such nonconformities shall be further defined according to one of the types of nonconformities listed below, or combination thereof, for the purpose of regulation.

2001.01 Nonconforming Undeveloped “Lot of Record”: This type of nonconformity is an undeveloped “lot of record” (i.e., part of a subdivision, the map of which has been recorded in the office of the Chancery Clerk of Lafayette County, Mississippi, or a lot described by metes and bounds, the description of which has been recorded in said office) the dimensions of which, subsequent to the passage of this Ordinance, do not meet the area or width requirements, or both, of the district wherein such lot is located.

2001.02 Nonconforming Structure (Including Buildings): This type of nonconformity includes anything lawfully constructed or erected with a fixed location on the ground (or attached to something having a fixed location on the ground) prior to the passage of this Ordinance, but which subsequently does not comply with the bulk, placement or other dimensional requirements of the zoning district wherein located.

2001.03 Nonconforming Use: This type of nonconformity includes the uses of any land, lot, building, structure, or parts thereof, which lawfully existed prior to the passage of this Ordinance but which subsequently does not comply with all or some part of the use requirements of the zoning district wherein located.

SECTION 2002 – REGULATIONS CONCERNING NONCONFORMING UNDEVELOPED LOTS OF RECORD

2002.01 Erection of Single-Family Dwellings Allowed on Nonconforming Undeveloped (or Vacant) Lots of Record: In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any nonconforming undeveloped (or vacant) lot of record after the effective date of this Ordinance.

2002.02 Erection of Commercial/Industrial Structures Allowed on Nonconforming Undeveloped (or Vacant) Lots of Record: In any district in which such use is permitted, a commercial/industrial structure and customary accessory structure may be erected on any nonconforming undeveloped (or vacant) lot of record after the effective date of this Ordinance.

No lot shall be created on or after the effective date of this Ordinance which does not meet the lot area and lot width requirements of the district wherein the lot is located. However, preliminary plats or conceptual plans approved by the Board of Supervisors prior to the effective date of this Ordinance have been grandfathered.

SECTION 2003 – REGULATIONS CONCERNING NONCONFORMING STRUCTURES

Where a lawful structure exists before the effective date of adoption or amendment of this Ordinance that could not subsequently be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, its placement on the lot, or other dimensional requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, provided that:

- A. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
- B. Should such nonconforming structure or nonconforming portions of a structure be destroyed by any means to an extent of more than fifty percent (50%) of its replacement cost at the time of destruction, reconstruction efforts shall begin within one year's time, otherwise it shall not be reconstructed, except in conformity with the provisions of this Ordinance.
- C. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

SECTION 2004 – REGULATIONS CONCERNING NONCONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY)

Where at the time of passage of this Ordinance, lawful use of land exists which would not be permitted by the regulations imposed by this Ordinance, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

- A. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance;
- B. No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this ordinance;
- C. If any such nonconforming use of land ceases for any reason for a period of more than 30 days (except where government action has impeded access to the premises), any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located;
- D. No additional structure not conforming to the requirements of this Ordinance shall be erected in connection with such nonconforming use of land.

SECTION 2005 – REGULATIONS CONCERNING NONCONFORMING USES OF MAJOR STRUCTURES OR OF MAJOR STRUCTURES AND LAND IN COMBINATION

If lawful use involving individual major structures (i.e., those with a replacement cost of \$1,000 or more) or of such major structures and land in combination, exists prior to the effective date of adoption or amendment of this Ordinance, that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
- B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.
- C. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.

- D. When a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for six consecutive months or for six months during any three year period (except when government action has impeded access to the premises), the structure, or structure and land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

- E. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to the extent of more than 50 percent of the replacement cost at the time of destruction.

The Zoning Administrator's response to a complainant may be by ordinary mail.

2101.02 Administrative Interpretation by the Zoning Administrator: In the event there is a question as to the general intent or specific meaning of any provision of the Zoning Ordinance text, or of the boundaries or district designations or other matters relating to the Official Zoning Map, the Zoning Administrator shall have the power to make such administrative decisions and interpretation. Such decisions or interpretations shall be made in writing by the Zoning Administrator.

- A. **Limitation of Powers:** Said administrative interpretation shall in no manner be construed to include, or used in any way which would permit, the granting of a conditional use permit (special exception), dimensional variance, or zoning amendment (either an amendment to the zoning text or a district reclassification that is, the rezoning of any land), the provisions for which use are given elsewhere in this Ordinance.
- B. **Appeals from the Administrative Interpretation by the Zoning Administrator:** Appeals from said administrative interpretation shall be made as provided in Subsection 2109.01 of this Ordinance.
- C. **Administrative Interpretation by the Zoning Administrator shall not be used in matters which the Zoning Administrator has personal financial interest or personal gain is involved.**

SECTION 2102 – DUTIES OF THE LAFAYETTE COUNTY PLANNING COMMISSION

2102.01 Composition: The Lafayette County Planning Commission shall consist of the five (5) members of the Board of Supervisors or their appointed representatives.

2102.02 Qualifications and Term of Office: Each member must be a qualified elector residing within Lafayette County. Members shall continue to serve until reappointed, removed, replaced or written resignation is submitted to the Board of Supervisors.

2102.03 Meetings: The Planning Commission shall meet at such time and as often as deemed necessary for the accomplishment of the purposes for which it is created.

2102.04 Quorum: No official business of the Commission shall be conducted without a quorum of the majority of the Commission (i.e., three members).

2102.05 Duties and Responsibilities:

- A. Prepare and propose a Comprehensive Plan of physical development of the County, as defined by Section 17-1-1 of the Miss. Code Ann.;
- B. Prepare and propose a Zoning Ordinance and an official Zoning Map and any changes or amendments thereto;
- C. Prepare and propose regulations governing the subdivision of lands and any amendments thereto; and
- D. Utilize the services of the Zoning Administrator, County Planner, County Administrator, County Attorney, Road Manager, County Engineer, and other County personnel and resources as they are authorized to assist the Commission.

SECTION 2103 – DUTIES OF THE BOARD OF SUPERVISORS IN THE ADMINISTRATION AND ENFORCEMENT OF THIS ORDINANCE

The Board of Supervisors of the County shall have the final authority with regard to all matters involving this Zoning Ordinance. The duties of the Board of Supervisors shall include, but not necessarily be limited to:

- A. Hear appeals from the administrative interpretation by the Zoning Administrator and/or Planning Commission.
- B. Final action of applications for dimensional variances, conditional use permits (special exceptions), rezonings and amendments to this Ordinance.

No member of the Board of Supervisors shall participate in the hearing of any item nor vote on any matter before the Board of Supervisors in which he has a personal interest.

SECTION 2104 – DIMENSIONAL VARIANCES

Where the strict application of this Ordinance would result in peculiar and exceptional practical difficulties to or exceptional hardship upon the owner of such property, the Board of Supervisors shall conduct a public hearing on applications for dimensional variances, and is empowered to grant approval of such dimensional variances from the strict application so as to relieve such difficulties or hardships. Examples of such difficulties or hardships include exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the original adoption of this Ordinance; or by reason of the location of trees, natural drainage course, lakes, or other desirable or attractive features, which condition is not generally prevalent in the neighborhood.

2104.01 Requirements for Granting Variances: Any person desiring a dimensional variance from the terms of this Ordinance shall submit a written application (on a form furnished by the Zoning Administrator) demonstrating compliance with all of the following; a variance shall not be granted unless the applicant demonstrates:

- A. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings, in the same district.
- B. That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.
- C. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, structures, or buildings in the same zoning district.

2104.02 Existence of Non-Conforming Uses Not Grounds for Variance: The existence of non-conforming uses of neighboring lands, structures, or buildings in the same zoning district shall not be considered grounds for granting a variance. Furthermore, the existence of permitted or non-conforming use of lands, structures, or buildings in other districts shall not be considered grounds for issuance of a variance.

2104.03 Public Hearing Required: A public hearing shall be held in accordance with Section 2107 of this Ordinance for all proposed dimensional variances.

2104.04 Required Findings: No variance shall be issued until the Board of Supervisors has made a finding that the reasons set forth in the application justify the granting of the variance, and that the variance constitutes the minimum allowable deviation from the dimensional regulations of this Ordinance in order to make possible the responsible use of the land, building or structures. Furthermore, no variance shall be granted until the Board of Supervisors has made a finding that the granting of the dimensional variance will be in harmony with the general purpose and intent of this Ordinance, and that the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

2104.05 Conditions and Safeguards May Be Prescribed with Dimensional Variance: In granting any dimensional variance, the Board of Supervisors may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 2914 of this Ordinance.

If such conditions and safeguards are imposed by the Board of Supervisors in granting a variance, the applicant shall be required to sign an agreement whereby he/she accepts those conditions and safeguards (which shall be specified in the agreement). This instrument shall be in a form recordable in public land records.

2104.06 Granting of a "Use Variance" Prohibited: Under no circumstances shall the Board of Supervisors issue a variance to allow a use not permissible under the terms of this Ordinance in the District involved, or any use expressly or by implication prohibited by the terms of this Ordinance in said district.

SECTION 2105 – CONDITIONAL USES (SPECIAL EXCEPTIONS)

The Board of Supervisors is empowered to hear and decide whether or not proposed conditional uses (special exceptions) authorized under this Ordinance should be granted.

2105.01 Requirements for Granting a Conditional Use Permit: Any person desiring a conditional use shall submit a written application (on a form furnished by the Zoning Administrator) indicating the Section in the Ordinance under which the conditional use is sought and stating the grounds on which it is requested. The Board of Supervisors shall not grant a conditional use unless satisfactory provision and arrangement has been made concerning all of the following:

- A. Ingress and egress to property and proposed structures thereon with particular reference to vehicular and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe.
- B. Off-street parking and loading areas.
- C. Refuse and service areas.
- D. Utilities, with reference to locations, availability, and compatibility.
- E. Screening and buffering with reference to type, dimensions, and character.
- F. Required yards and other open space.
- G. General compatibility with adjacent properties and other property in the district.
- H. Any other provisions deemed applicable by the Board of Supervisors.

2105.02 Site Plan Required: Every applicant for a conditional use permit shall submit a site plan in

accordance with the Lafayette County Land Development Standards and Regulations.

2105.03 Public Hearing Required: A public hearing shall be held in accordance with Section 2107 of this Ordinance for all proposed conditional uses.

SECTION 2106 – AMENDMENTS TO THE ZONING ORDINANCE TEXT OR THE OFFICIAL ZONING MAP (REZONING)

2106.01 Type of Amendments/Application Required: Amendments to this Ordinance include: (1) amendments to the text; and (2) amendments to the Official Zoning Map, which is legally a part of this Ordinance. Any person may initiate an amendment to this Ordinance by filing an application with the Zoning Administrator (on a form furnished by him/her).

2106.02 Site Plan Required: If a specific use is identified by the applicant for a rezoning (i.e., a proposed amendment to the Official Zoning Map), then the application for rezoning shall be accompanied by a site plan prepared in accordance the Lafayette County Land Development Standards and Regulations.

2106.03 Criteria for Rezoning: No amendment to the Official Zoning Map shall be approved unless the proposed rezoning meets one of the following criteria:

- G. That there was a mistake in the original zoning. “Mistake” in this context shall refer to a clerical or administrative error, such as a mistake of draftsmanship on the Official Zoning Map or incorrectly reflecting the Board of Supervisors’ decision in the minutes. “Mistake” does not mean that the Board of Supervisors made a mistake in judgment in their prior zoning, such as not realizing the full import of the zoning classification or mistakenly placing the property in one classification when the evidence indicated that another would have been more appropriate.

- A. That the character of the neighborhood has changed to such an extent as to justify reclassification, and that there is a public need for the rezoning.

2106.04 Proposed Rezoning Shall Be Consistent with Adopted Comprehensive Plan: Section 17-1-9 of the **Mississippi Code of 1972**, As Amended, requires that “zoning regulations shall be made in accordance with a comprehensive plan---.” Accordingly, no amendment to the Official Zoning Map shall be approved by the Board of Supervisors unless the proposed rezoning is consistent with all four elements of the adopted Comprehensive Plan of the County, including the Goals and Objectives, the Land Use Plan, the Transportation Plan, and the Community Facilities Plan.

2106.05 Public Hearing Required: In accordance with Section 17-1-17 of the **Mississippi Code of 1972**, As Amended, a public hearing shall be held on any proposed amendment to the text of this Ordinance or the Official Zoning Map following at least fifteen (15) days’ notice of the hearing in “---an official paper or a paper of general circulation in such municipality ---specifying a time and place of said hearing.” The hearing shall be held in accordance with Section 2107 of this Ordinance.

2106.06 Res Judicata: Upon the submission of an application for a rezoning, and a determination

by the Board of Supervisors that said application should be denied, the Board of Supervisors shall not accept a subsequent application to re-zone the same property or any part thereof to the same classification until the expiration of one (1) year from the date of the decision of the Board denying said application. This is known as the doctrine of res judicata. However, if the application relates to the same property but seeks zoning to a different classification, the doctrine does not apply; and the Board of Supervisors may consider such a proposed rezoning.

2106.07 When an Ordinance Amending Text or Official Zoning Map is Required and Publication of That Ordinance: No amendment to the Official Zoning Map or the text of this Ordinance shall become effective until an Ordinance amending same has been passed by the Board of Supervisors.

SECTION 2107 – PUBLIC HEARING NOTICES AND PROCEDURES

In accordance with the provisions previously established in this Ordinance, public hearings shall be conducted by the Board of Supervisors on the following matters:

- A. All dimensional variances.
- B. All conditional uses.
- C. All amendments to the text of the Zoning Ordinance or amendments to the Official Zoning Map (i.e., rezoning).

2107.01 Public Hearing Notice in a Newspaper Required: Whenever a public hearing is required by this Ordinance, notice of such hearing shall be given by publishing a notice to all interested persons one time at least fifteen days prior to the date fixed for said hearing, such notice to be published in an official paper or newspaper of general circulation in the County, specifying the date, time and place for said hearing.
